Re: Onondaga County MS4 Assistance Program
Intermunicipal Agreement Renewal beginning January 1, 2014 – ending December 31, 2018

Dear Mayor or Supervisor:

I am pleased to inform you that the Onondaga County Legislature has elected to renew our agreement, at no cost, to provide assistance to your municipality in complying with Department of Environmental Conservation Stormwater permit (MS4 SPDES) requirements. Onondaga County would like to thank you again for your participation in the County's MS4 Assistance Program for Minimum Control Measure 3 (MCM3), Illicit Discharge Detection and Elimination (IDDE). As you may know, a renewed Intermunicipal Agreement (IMA) will allow Onondaga County to continue to assist your municipality in meeting the NYSDEC required regulation, MS4 – Minimum Control Measure (MCM) 3.

Since the program inception in 2009, we have completed the first 5 year cycle of outfall inspections, assisting in maintaining your regulatory compliance for MCM 3. Over the past five years approximately 2000 outfalls have been mapped and organized within a GIS data base and undergone a dry weather inspection. Furthermore we have, and propose to continue to maintain, the following Phase II Stormwater activities:

- Maintain the established centralized "Hotline" for citizens to report suspected illicit discharges
- Perform routine inspection of stormwater "outfalls" already mapped by MS4s (achieve 20% minimum per year for the next 5 years)
- Track down of sources of potential illicit discharges to stormwater systems (when requested by the MS4 for assistance)
- Share laboratory services or pursue group discount rates for contracted services with outside laboratories

Attached for reference you will find a copy of the Onondaga County Legislator Resolution No. 160, Dated November 4, 2013. In addition an Intermunicipal agreement for your execution to allow continuation of the County's assistance to your municipality in complying with the State required MS4 SPDES program (MCM 3).

Please complete this agreement and return an executed copy to my office, as I will in turn return a fully executed copy for your records. This agreement must be in place before dry weather inspections begin this spring.

For all current participating MS4's you may indicate on your 2013 annual MS4 stormwater report under MCM 3 the following:

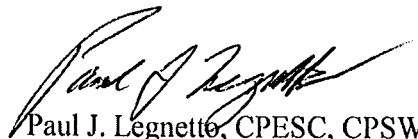

- You have 100% of your outfalls recorded and mapped.
- The "Box" for number of outfalls inspected this year, per NYSDEC direction, should be left blank with added explanation at the end of section MCM 3 - indicating that your municipality has met the required outfall inspections during years 2013 – 2014.

Please note if your contact person(s) for illicit discharge detection and/or stormwater coordination has changed, please return the current name(s) and number(s) for revision of the County contact data base.

As a reminder, new MS4 outfall locations identified or added to your system must be included in your inspection inventory. Please notify me of any new location(s) with outfall data so they may be added to the county-wide inventory system for inclusion in the IDDE inspection program.

Please do not hesitate to call me at 435-5402 x219 if you have any questions or concerns with the assistance program.

Very Truly Yours,

Paul J. Legnette, CPESC, CPSWQ
Onondaga County - Program Coordinator
(Stormwater Management)

CC: Dave Coburn, Onondaga County Office of Environment

Stabilize and repair existng wall and coat with brown mortar. Install new limestone cap on top of existng wall to prevent future water ingress. Letters are 1" thick white PVC stud mounted to wall with 1" spacers. Caopy is on both sides. All work comes with a fullthree year parts and labor warranty.

Subject: Parks & Recreation Office Staff

John,

As a temporary fix to the Parks & Recreation office staffing issues, I'd like to bring **Marty Bullis** over from Day Camp, once camp is over on *August 15th, 2014* to continue working for a max of 20 hours a week in the office.

This would include coving the office during offices hours, special events and any programs needing covering.

His hours would offset with Terrie Massaro, whenever she could not be in the office or is called to another department during their busy season.
