2019 FUNDING REQUEST

ONONDAGA COUNTY COMMUNITY DEVELOPMENT

Assistance with completing this FUNDING REQUEST is available by contacting Martin Skahen at 435-3558.

Use a separate funding request for each project. You are not limited to one project application per year. Additional application forms will be provided by request, or they can be downloaded from the website: http://www.ongov.net/cd. Projects previously submitted must be resubmitted on new forms. Please answer all questions applicable. Attach additional sheets only if necessary. Do not submit more than one copy. Please provide a map and photographs of the project site. Please also e-mail your application to cd@ongov.net.

Completed FUNDING REQUESTS must be submitted to Community Development by <u>March 15, 2019</u>. The office is located on the 11th Floor of the Civic Center.

1. GENERAL INFORMATION

Project Name	Town of Lysander Fire Protection Proje	ect
Project Location	(Attach a map which locates the project. Als map.)	o locate your project on a copy of the income
Street Address	Multiple Locations in the Plainville, <u>Districts</u>	Northwest and Cody Fire Protection
Town/Village	Town of Lysander	
Municipal Contact	Joseph P. Saraceni	315-857-0281 (phone)
Engineer/Architect	Town of Lysander (name of firm)	(phone)
	Allen J. Yager, P.E. (name of contact)	315-857-0291 (phone)
Application prepared by	Allen J. Yager, P.E. (name)	315-857-0291 (phone)
Census Tract #		Block Group #3 (refer to enclosed map)
Number of Persons/ Households Benefiting	1535	
Public Hearing Held	<u>X</u> YES _ NO Date: <u>03/21/19</u>	Map Included: _X_YESNO
Resolution Included	<u>X_YES_NO Date: 03/21/19</u>	Was project included in Consolidated Plan _X_YESNO
Is Project Site Owned by	the MunicipalityYES _X_NO	
If no, who owns project si	te? Multiple private parcels are included	d in the project
If not owned by the munic property will be obtained.	cipality, a long term lease will be necess	sary. Easements accessing the private

Who will provide long-term maintenance? Plainville, Northwest, and Cody Fire Protection District

2. PROJECT DESCRIPTION

elderly and handicapped individuals.

Include exact street locations, number of feet of sidewalks, etc. Example: 1,300 lineal feet of sidewalk on the east side of Chappell Street between Mechanic Street and North Street. Five (5) trees, 4 benches, 800 lineal feet of curbing on Charles Avenue between Katherine and Downer.

The proj	ject includes the following 3 sites where new 622 Swamp Rd 1095 Lamson Rd 777 Lamson Rd	dry hydrant	s will be	installed:		
As well	as the following 3 sites where existing dry hy 9160 Prine Rd 9393 Plainville Rd 8974 Plainville Rd	drants will	be replac	ced:		
3.	PROJECT ELIGIBILITY					
	This project:					
	_X_will principally benefit low income po will benefit elderly or handicapped will eliminate slums or blighting cond					
	a. LOW INCOME BENEFIT					
	# of houses in project area (or)					
	# of low income people benefiting	1535				
	Census Tract # 114.02	Block Gro	up#	3		
	Income SurveyYes					
	Date: (Income S	Survey mu	st have l	been completed	d within t	he last 5 years.)
	b. HANDICAPPED OR ELDERLY BEN	EFIT (ex	plain)			
	c. SLUMS OR BLIGHT					
	If your project proposes to alleviate or	eliminate s	slums or	· blighting con	ditions, h	ave you included:
	 i) a description of the boundaries and ii) a resolution passed by your town or your definition of slum, blighted, de 	r village bo	ard whi	ch contains	Yes	No

Note: Slums or Blight is an eligible category, but priority is given to projects that benefit low income people,

4. **DEFINITION OF THE PROBLEM**

Briefly explain the problem this proposal seeks to eliminate. Indicate why, where, and how the problem exists; supply documentation to support your opinions (i.e. surveys, studies, documents, reports, photographs, etc.). Indicate how the proposed project will alleviate the problem.

The entire Community Development Block Grant eligible area in the Town of Lysander, which is approximately 19 square miles, has one functioning dry hydrant for firefighting. This condition is a public safety issue that increases response times in the event of a fire as there is no municipal water supply within the Community Development Block Grant eligible area. The proposed project will enhance firefighting capabilities in a low income neighborhood.

5. GREEN INFRASTRUCTURE TECHNOLOGY

Special consideration will be given when green infrastructure technology solutions are incorporated into the project proposal. Examples of green infrastructure technology include, but are not limited to, reducing stormwater flows by using permeable pavement, vegetated median strips, trees, tree boxes, rain gardens, infiltration planters, and green roofs, as well as promoting energy efficiency and using recycled products.

6. IMPLEMENTATION

Describe your implementation schedule. Funding will be available in late Fall 2019. The project must be completed by August, 2020.

A. Construction schedule

The project plans, specification and wetland permit applications for the proposed project will be prepared in the fall of 2019 and the project will be bid in December of 2019 with construction scheduled to start in the spring of 2020.

B. Permits and/or other approvals necessary

Easement will need to be obtained from the affected private property owners and NYSDEC/ACOE wetlands permit would be required for the new dry hydrant locations.

C. Describe long term maintenance plan, e.g. who will be responsible for snow removal on new sidewalks, etc.

The Plainville, Cody, and Northwest fire protection districts would be responsible for the annual dry hydrant flushing and maintenance.

7. COST ESTIMATES

Provide detailed cost estimates for the proposed project. Community Development cannot pay cost overruns; therefore, your cost estimates should be as accurate as possible. Costs should be based on engineering or architectural estimates. When preparing this data, consider these factors:

- 1. Project should be completed in one phase if possible. If it is necessary to divide the project into phases, each phase should be functional by itself because of the uncertainty of future funding. Funding cannot be stockpiled from year to year;
- 2. Federal Prevailing Wage Rates apply to construction projects over \$2,000;
- 3. Cost estimates should be as detailed as possible;
- 4. Funds will not be available until late Fall 2019;
- 5. if a project can be broken into distinct parts, what is the cost and priority of each part?

NOTE: Attach separate page(s) for the cost estimate.

	Total estimated cost of project	:			\$59,000	0 earest \$10	<u></u>

	is support be demonstrated.						

If YES, please attach documentation to describe how the proposed plan is consistent with the above.

_X___YES____NO

The Proposed project will provide water for firefighting that will improve emergency response times and firefighting capabilities in a low income neighborhood.

4 4			
11.	Environm	ental Coi	nsiderations

If your project is approved, the municipality is responsible for completing the State Environmental Quality Review (SEQR) and submitting the appropriate documentation once the SEQR is completed.

The Community Development Office will complete the federally required National Environment (NEPA) Review.	ronmental	Policy Ac
(YES	NO
Is the project located in a floodplain? Note: Buildings in a floodplain must be covered by flood insurance.		<u>X</u>
Is the project located in a wetland?	<u>X</u>	
If yes to either question, include a topographical map.		
Will you be removing any trees? If yes, how many and what size (dbh – diameter at 4.5 feet above ground)?		_ <u>X</u>
If the property listed on, or eligible for, the National Register of Historic Places?		<u>X</u>
If the project includes building renovation, what year was the building built?		
If there were additions, what year(s) were they added?		
Does the building contain any: Lead Asbestos Mold Radon	<u> </u>	
Please explain how this was determined. If yes, where is it located?		
	" "	
Are there any tanks, toxic or hazardous materials located on the site or nearby?		<u>X</u>
Is the site located within ½ mile of the airport?		<u>X</u>
Additional information:		

PLEASE PROVIDE THE FOLLOWING:

- 1. Staple your application
- 2. Census Map showing exact project location; topographical map, if required
- 3. Photographs of the project site or neighborhood in a clear plastic sleeve
- 4. Resolution of the Town or Village Board which authorizes the application
- 5. Evidence of a public hearing
- 6. Cost estimate
- 7. Construction schedule
- 8. Indication of project priority if submitting more than one project and an explanation of your priorities
- 9. Evidence of the use of green technology
- 10. E-mail your application to cd@ongov.net

PLEASE DO NOT:

- 1. Do not enclose extra copies
- 2. Do not attach your Five-Year Plan to an application; please submit it in a separate letter

Thank You

Town of Lysander

Community Development Projects

Consolidated Five-Year Plan

$\underline{Proposed-2019}$

	<u>PROJECT</u>	Year of Application
1.	Lysander Fire Protection Project: The Town proposes to repair three (3) existing dry hydrants in the CDBG eligible area of the Town and install four (4) new hydrants in the CDBG eligible area of the Town.	2019
2.	Culvert Slip Lining on Prine Road, Wheaton Road and Copper Knoll Road: The proposed culverts will continue to deteriorate without slip lining leading to the potential for flooding of low income properties - 2019	2020
3.	Playground Equipment for Lysander Town Park: Installation of a playground apparatus for handicapped and low income residents - 2020	2021
4.	Emergency Generator for Town Office: Installation of a generator at the Lysander Town Offices would allow the town to create and emergency shelter in the building for handicapped, elderly and low income residents.	2022
5.	Lysander Town Park Drainage Improvements: Upgrades to the drainage facilities at the Lysander Town Park ball fields.	2023
